SUBJECT: Reformatted application text, specifications and abstract as requested.

Application number: 10/767,306

Patent Title: Element Management System Architecture without using SNMP

Date Filed: 1/30/2004

Sir/Madam,

Please find enclosed the reformatted application text, specification and abstract as requested. There is also a copy of the old specification specifying the differences. The new changes are:

- All text is 1½ line spaced
- The abstract and the specification are sequentially numbered.

Please replace the old specifications, abstract and application text with the new version.

Thank you
